## Our 'Local Offer/Special Educational Needs Information Report' for Special Educational Needs and Disability (SEND)

At Berrycoombe Primary school we firmly believe that it is vital for all pupils in our care to meet their full potential. Our aim is that every child thoroughly enjoys their school experiences and participates in school life fully with enthusiasm for learning, achieving, making good progress whilst continuing to grow as individuals.

This is achieved through quality first teaching, the calm nurturing environment and through the clear and consistent approach that resonates throughout the school. The individual needs of all our children are a central focus, providing stimulating and exciting learning opportunities for all.

We are sensitive to the varied individual needs of pupils and we use a flexible, graduated approach to support specific needs and differing abilities. We endeavour to promote collaboration between school, parents and other agencies in order to meet individual needs in an inclusive, organised, robust and carefully considered manner. We aim to ensure that pupils are provided for and targeted support is given to enable pupils to fully access the curriculum effectively. We promote independent skills and support pupils to take the next steps in their learning journey.

## Answers to Frequently asked Questions

1 How does your school know if children/young people need extra help?

The class teachers and Senior Management Team regularly monitor progress of all children. If a child's progress stalls then specific support/interventions are put in place to aid the child's learning.

2. What should I do if I think my child may have special educational needs?

In the first instance you are advised to talk to your child's teacher. Please contact the office to make an appointment. You can also talk to the Senco, parent support advisor or a member of the senior management team. We are all committed to ensuring your child is happy and making good progress.

2. Who is responsible for the progress and success of my child in school?

We believe that school and home working in partnership is the most effective way to ensure your child makes the most of the learning opportunities offered by Berrycoombe School. We ask that you support your child's homework by providing a suitable space for them to complete it, as well as ensuring that they read at least 3 times a week. In school your class teacher has the day to day responsibility to ensure your child is making good progress. The teachers are supported by the Senco and external agencies when necessary.

3. How will the curriculum be matched to my child's needs?

Your child's teacher will ensure the work is matched to your child's needs – this is called differentiation. It may be the work is slightly different; there may be additional resources available or support from teaching assistants.

4. How will I know how my child is doing and how will you help me to support my child's learning?

Our school is committed to working in partnership with parents to ensure the best outcomes for your child. We strongly encourage you to attend the termly parent's consultation and you are welcome to make an appointment at any time to see your child's teacher to discuss their progress.

6. What support will there be for my child's overall wellbeing and safety?

All staff and governors at Berrycoombe School are committed to ensuring your child is safe, happy and thriving during their time with us. If you have any concerns please see your child's class teacher, Mrs Smith or a member of the Senior Management Team.

There are class and playground rules in place that the children have designed and agreed themselves. There are numerous staff with first aid qualifications, food hygiene qualifications and staff specially trained in child protection. Please ensure you let us know if your child has any additional needs – medical, social or academic.

7. What SEND training have the staff at school had or are having?

All staff receive SEND training as part of their continued professional development, through specific courses, work with agencies or as part of school staff meetings/in-service training days.

8. How will my child be included in activities outside the classroom including school trips?

Class visits and trips are an integral part of our curriculum and all children are expected to attend if that is the plan for their class that day. Longer residential trips are also very valuable but incur a cost which means they can be attended at parent's discretion. The reason a child may not attend a trip is if they pose a threat to their own or other children's safety (the school reserves the right to refuse a place on a trip).

9. How accessible is the school environment?

Berrycoombe school's environment is very accessible with ramps, specialised toileting facilities (including a wet room) and hand rails where needed (adaptations are made as necessary to accommodate specific needs)

10. How will school prepare and support my child through the transition from key stage to key stage and beyond?

Berrycoombe school staff share academic and specific additional needs information at every point of transition, whether it is moving between year groups/key stages or from one intervention group to another. Upon leaving Berrycoombe to transition to another primary/secondary school, staff share the relevant information and make visits where necessary.

11. Who can I contact for further information?

In the first instance you are advised to contact your child's teacher. Other staff in school who would be happy to help are Mrs Smith (Senco), the head teacher or a member of the senior management team. We also have a governor with specific responsibility for Special Educational Needs and Disabilities. She is called Hannah Fugill and can be contacted through the school office.

12. What should I do if I feel that the Local Offer is not being delivered or is not meeting my child's needs?

Please talk to Mrs Smith (Senco) or Mr Craig Robertson (Head teacher) if you have any concerns.

13. How is your Local Offer reviewed?

The school offer will be reviewed annually following consultation with pupils, parents and staff.

14. How do you know how good your SEN provision is?

Staff are evaluated on a regular basis through staff performance management, appraisals and observations.

15. If you wish to complain.

If you have any queries or concerns about the SEN provision within our school then please see the school's SENCO, head teacher or governor with responsibility for SEN. (Details of the personnel involved can be found on the front page of this SEN information report/school offer.)

### **COVID-19 CLOSURE** (started on 20/3/20)

During the school closure due to Covid-19, the school's SENCo is in regular email contact with all parents of children with an EHCP, offering support. The PSA and Head teacher have phone contact with vulnerable children/families.

All classes have online learning platforms and work set daily (except during the Easter break) which the children and their families are encouraged to complete.

All children were sent home with a home learning pack including log in details and paper/pencils; any children already isolating/shielding and not in school on that day had their packs delivered to them by members of staff.

For those children deemed to have not accessed any of the work set a wellbeing phone call home will be made to determine if any further support is needed.

All parents/carers of children with an EHCP were contacted following the Government's announcement of closure to offer a place in school; however, all children remained at home in a safe, risk free environment. A risk assessment was made for each of these children and shared with the head teacher and PSA for reference.
